

# JOHN MOYNAHAN

URBAN DESIGNER

Address: Baltimore, USA

[linkedin.com/johnmoynahan](https://www.linkedin.com/johnmoynahan)

## PROFILE

Mr. Moynahan was recently a self-employed urban designer contributing to the design of human-scale, walkable places throughout the US and abroad. John has received national awards for site design sensitivity and environmental design for projects both designed and constructed. He is passionate about creating walkable, compact urbanism and resilient communities—at all scales. John makes an impact by participating as part of design teams, assisting with graphic support, specifically in the preparation of alternate conceptual layout plans of neighborhoods, corridors, open space, and urban places.

## EDUCATION

### Master of Urban Design

University of California, Berkeley  
California

## EXPERIENCE

2015 - 2023

**Parental Leave, Part-Time Urban Design Consultant**  
Maryland

2005 - 2015

**Urban Designer, John Moynahan Urban Design**  
Maryland

Critical thinking skills incorporate and blend innovative ideas in landscape architecture and urban design into places people love. Working with communities to build universally accessible neighborhoods, town centers, streets, and public places, responsibilities included charrette designer and lead project designer. Collaborated with clients to understand project goals and objectives, stakeholder needs, and constraints. Provided technical expertise in principles associated with building healthy places for people. Created detailed drawings of streetscapes, parks, and public spaces.

1999 - 2005

**Urban Designer, Design Collective Inc.**  
Maryland

Responsibilities include design and management of projects ranging in size from 10 to 2,000 acres. New Urban charrettes were often utilized for public and private sector clients seeking alternative development solutions, and rapid public input. Guidelines and codes for buildout were custom-fitted to several projects. Walkable urbanism was always priority in the creation of places including station area plans, sprawl repair, and new communities.

1998 - 1999

**Urban Designer, Calthorpe Associates**  
California

A position as designer for a pioneer of innovative approaches to urban design exposed John to new approaches to urban revitalization, suburban growth, and regional planning. Plans for new and existing communities were designed; detailed designs for civic spaces and thoroughfares and compelling presentations were prepared; regional planning a specialty.
